Hi Julie,

I'm sorry to hear that the presentation came off that way. I am sure this was an honest oversight by our presenter. We absolutely want to be transparent and informative because there is nothing to hide in our ballot in regards to decriminalization for small amounts of personal possession.

I am looping in our Educational Outreach Director, Graham Moore, who can shed more light onto why the decriminalization and home grow component of the ballot is essential.

Best,  
Tomas

Hi, Tomas,

In short, no. We feel very misled by your organization's presentation. We were led to believe that this ballot question was about providing a well-regulated therapeutic option for folks dealing with treatment-resistant PTSD, anxiety, and depression. Your representative never mentioned that this would permit folks to grow four different types of psychedelics for personal use.

Julie

Hi Julie,

I understand Question 4 was never endorsed by your committee, but I wanted to check if the Wrentham DTC could use Yes On 4 materials to put up at local polling stations. I also have an email formatted with last minute information about Question 4 if you believe your network could benefit from an email blast.

Let me know if you need anything and I am happy to help.

Best,  
Tomas
